

Our website uses cookies to distinguish you from other users of our website. This helps us to provide you with a good experience when you browse our website and also allows us to improve our site.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive.

We use the following cookies:

- **Strictly necessary cookies.** These are cookies that are required for the operation of our website. They include, for example, cookies that enable you to log into secure areas of our website, use a shopping cart or make use of e-billing services.
- **Analytical or performance cookies.** These allow us to recognise and count the number of visitors and to see how visitors move around our website when they are using it. This helps us to improve the way our website works, for example, by ensuring that users are finding what they are looking for easily.
- **Functionality cookies.** These are used to recognise you when you return to our website. This enables us to personalise our content for you, greet you by name and remember your preferences (for example, your choice of language or region).
- **Targeting cookies.** These cookies record your visit to our website, the pages you have visited and the links you have followed. We will use this information to make our website and the advertising displayed on it more relevant to your interests. [We may also share this information with third parties for this purpose.]

You can find more information about the individual cookies we use and the purposes for which we use them in the table below:

Cookie Title Cookie Name	Purpose	More information
elementor	Used in context with the Websites WordPress theme. The cookie allows the website owner to implement or change the website's content in real-time	
Loglevel	Maintains settings and outputs when using the Developer Tools Console on current session	
_ga	Statistic cookies help website owners to understand how visitors interact with websites by collecting and reporting information anonymously.	
ga#	Used by Google Analytics to collect data on the number of times a user has visited the website as well as dates for the first and most recent visit.	
sp_landing	Used to implement audio-content from Spotify on the website. Can also be used to register user interaction and preferences in context with audio-content - this can serve statistics and marketing purposes.	
sp_t	Used to implement audio-content from Spotify on the website. Can also be used to register user interaction and preferences in context with audio-content - this can serve statistics and marketing purposes.	

We do not share the information collected by the cookies with any third parties.

If you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our website.
